Jack Binns Objects To Vitagraph Pictures

New York, Aug. 3.—"Jack" Binns, the wireless operator of the Republic, which was sunk by the Florida early last Spring, through his counsel, asked Supreme Court Justice Brady, yesterday to continue an injunction restraining the American Vitagraph Company from using a series of pictures called "Saved by Wireless" depicting Binns sending out messages from the sinking ship. It was alleged that it was not a picture of Binns, but an actor made up to look like him. The Vitagraph company held that Binns, who is now conducting a show at Luna Park, is not averse to publicity, and it is further contended that the right of a moving picture to use the picture of a person was identical with that of a newspaper or magazine. The court said that the margin of difference, if any, was very small, but that he would consider the alleged violation of privacy. Counsel will hand in briefs on Thursday.

Real Reductions in Summer Wears for Women and Misses.

Never has any previous clean-up sale opened with such "snap and go," such assurance of success. It was our promise that this would be the greatest and most generous real value giving event of the season. Come and see how thoroughly the offers surpass our claims. Nothing is spared in the way of price sacrifice in order to make this summer clean-up of women and misses complete from start to finish. Wash suits, wash dresses, linen dresses, headbloomers, petticoats, silk coats, white serge suits, lingerie dresses, etc., all at emphatic reductions. The buying has been brisk right from the start, but there is still splendid field for choice, as assortments were large. But be prompt! Remember, reductions are real in every case, and best of all, the goods are trustworthy. The Laborde Co., next door to Lane's, opposite Howland's. The store where you always go for bargains in the true sense. Adv.

Mayor Lee and Town Clerk Weber have received a letter from Mrs. A. Bliz of 3046 Third Avenue, Bronx, thanking them for locating her long lost aunt, Mrs. Philippine Bourdy of this city. Mrs. Bliz states that her aunt saw the notice in the newspaper and wrote to her. She does not state where the aunt resided in city.

PRICE ADVANCES IN STEEL TRADE

GREATEST OUTPUT OF THE YEAR REPORTED IN LAST HALF OF JULY — CHICAGO BILLET FAMINE INTENSIFIED.

Pittsburg, Aug. 3.—The iron and steel trades as a whole recorded the greatest output of the year during the last half of July. Demand for structural material and the sudden activity of car builders have braced the market in finished product lines despite the strike misfortunes in the Pittsburgh district and elsewhere. Steel plate makers are preparing to follow the lead of the rod and wire manufacturers and announce a substantial advance.

The week's feature in prices was the advance announced in wire products of \$2 a ton, following a similar advance May 15, and carrying these products about one-half of the way from the low point of May to the average of 1907. This advance has been followed by a general strengthening of prices by wire rod producers, the close of the week finding many operators asking \$31 Pittsburg, an advance of \$2 in harmony with the wire increase. Some shaling to \$39 and even \$29 was reported, but it was conceded that the new level would be firmly established within a few days.

Buying of pig iron by Eastern interests has been very heavy during the week. New England and Eastern Pennsylvania interests in the market for next year's deliveries. Southern foundry interests are making every effort to secure an advance of \$15, though most of the sales reported are still at \$12.50 Birmingham. Bessemer is being maintained at \$16, valleys, though one sale is reported at \$15.75. Sales of basic iron at \$15.25, valleys, for third quarter delivery were reported in Pittsburg. Ohio interests, sensing a shortage in that section, are showing a disposition to come to the market for their iron. Foundry No. 2 is quoted as high as \$15.50 for the fourth quarter delivery; malleable Bessemer at \$15.25, and forge at \$14, valleys. The United Steel Company of Canton is in the market for a part of its next year's supply. Southern Ohio furnaces also are warily watching orders for next year's deliveries at present prices. The expected order of the Steel Corporation for 100,000 tons of Bessemer failed to materialize.

Chicago's billet famine has become intensified. The Steel Corporation has withdrawn from the market, and is awaiting the opening of the new mill at Gary, which has been delayed.

Rail tonnage has the Western mills filed to the limit of the present quarter, and orders now coming in are being turned over to the Pittsburgh district mills. Eastern mills also have cars better in rail tonnage during the week just ended. Inquiries for 15,000 tons of standard rails by trunk lines promise to spur the rail makers still further. The steel car strikes and the tin plate trouble have been affecting the Steel Corporation's tonnage by something like 3,000 tons a day in plating shapes, bars and sheets. The settlement of the Standard Steel Car Company's strike at Butler and a gradual increase in production by the American Sheet and Tin Plate Company in the face of an unexpected stubborn fight by the striking workmen promises to relieve this situation somewhat, but there is no sign of improvement in the situation at the McKees Rocks plant of the Pressed Steel Company.

The tin plate output is more seriously affected by the Amalgamated Association's struggle against the American in the combine's sheet and tin plate mills than is the output in sheets. The company's claims the last of the week in the tin plate plants were that a total of 114 mills were out of work, a possible capacity of 202, while the strikers admitted the company's ability to man only 92 mills.

The sales feature of the week was the new equipment orders by the railroads, which presage an immediate increase in the output of plates. The Baltimore & Ohio's specifications will probably be increased from 5,000 out to 8,000 cars. The Pennsylvania has inquiries out for 8,000 freight cars. The Erie, Northern and Erie Railroad have placed orders for 1,000 cars each. The Brooklyn Rapid Transit is in the market for 2,000 cars of open and closed type. The New York Central placed a 2,400-car order with the Standard Steel Car Company, the American Car and Foundry Company, and Haskell Barker, and the Canadian Pacific Company received an order for 1,000 steel hoppers from the Buffalo, Rochester & Pittsburgh. Smaller orders increased this total by 2,500 cars.

The puddling trouble which tied up a number of furnaces in the Pittsburgh district since July 1 has been settled, eight companies signing the scale based on a \$5.25 rate. Only one company, the Pittsburgh Forge and Iron, is holding out against the striking puddlers.

ALABAMA VOTES FOR INCOME TAX

Montgomery, Ala., Aug. 3.—Unanimously voting in support of the measure, the House of Representatives of Alabama authorized yesterday the amendment to the United States Constitution proposed by Congress several weeks ago. Upon special request the measure was taken up under the head of "special orders." Col. Thomas L. Bullock, speaker of the House, in favor of the amendment, and it was rushed through at once and into the Senate. That body is expected to take action by Wednesday. The amendment will affix his signature to the measure on the same afternoon.

Action on the question has been one of the quickest in the history of the State. Last week, on the second day of the session of the Legislature, in special session, a resolution was introduced favoring the amendment. That afternoon the resolution was placed in the hands of the Judiciary Committee of both houses, and on the next day was reported back to the houses favorably. On Saturday the Legislature was adjourned, and yesterday an especial session of the House was called for the purpose of coming up for final vote. By the end of this week Alabama's Representatives in Congress will be apprised of this State's vote, and the income amendment will be as good as in the Constitution so far as this State is concerned. That there will be no objection to the measure whatever is asserted by the House of Representatives. "You may state," is the announcement from that source, "that Alabama has no objection whatever to the amendment. It is a very good way to keep the country away from greater deficits."

Hon. introducing the measure to the House, Col. Bullock, who is one of the State's political leaders, stated that he was "anxious to see Alabama the first State in the Union to give her endorsement to the Sixteenth Amendment to the United States Constitution." The only interruption to his speech was a query by Representative J. T. Glover of Birmingham, who wanted to know if the amendment would affect salaries. Col. Sam Will John, also of Birmingham, responded that it would not unless Congress passed a law including salaries.

WANT ADS, CENT A WORD.

SHERWOOD'S SUGGESTION

Calls Attention to Need of Third Man on Jumbo Trolley Cars

SPECIFIC CASES CITED

Editor of Evening Farmer:
Sir—Kindly allow me to encroach on your valuable space with a protest against the trolley company of this city.

We have been objecting to the high steps on the cars, to the rudeness of the employees, at both ends of the car, to the poor service, to the ramshackle appliances of cars, and to poor ventilation on the closed cars.

But nobody has called the attention of the authorities to the absolute need of a third man beside the conductor and the motorman on the large jumbo cars. My attention was called to it several times when the conductor, working on the forward end of the car, called to passengers on the rear end if it was all right to go ahead. Now it is hardly the thing for the passenger to pay a fare and still help run the car. But the main objection is this:

On Wednesday at about 8 p. m. a passenger alighted off a Steeplechase Island car at Adams street. The conductor, instead of doing his own duty, called to the rear if it was all right. A drunk answered "all right," the conductor gave the signal to start and almost threw a woman and child who were getting off, under the car.

On Saturday on Car No. 363 due from Merford to Bridgeport about 6:30 p. m. the same thing occurred. A woman and boy of about four were almost killed through the carelessness of the conductor in giving the signal to go ahead before the passengers had alighted. This incident happened on the other side of Avon Park, on the same car in which a man broke his Derby hat on the guard rail which the conductor had failed to put up at one end.

Watch the cars at Fairfield and Main and see for yourself if a third man is not needed to help women and children up in the cars. See for yourself if one man can collect fares and take care of the car at the same time, without endangering the life and limbs of the people.

We have asked for grooved rails, and other things from the company, and have failed to get them. Here is something the authorities could do for them to do. The justice of this will be apparent to any observer who rides on the big cars. Thanking you, I am

Yours truly,
CHARLES G. SHERWOOD.

Mrs. Sage Building For Working People

Cedarhurst, L. I., Aug. 3.—Mrs. Russell Sage has purchased the old grounds for the purpose of erecting small houses suitable for working people paying nominal rents. The property of forty-four acres, and the houses will be of two stories, with modern improvements. Mrs. Sage made a trial venture of the kind about a year ago, when she erected small one-story houses. They were all taken before they were finished.

YACHTS COLLIDE IN CRUISING RACE

New Haven, Aug. 3.—Leading the twenty-eight yachts that started yesterday morning from Oyster Bay in the first squadron run of the joint yacht club cruise of the Seawanhaka Corinthian Yacht Club and the Corinthian Club of Philadelphia, Cord Meyer's sloop yacht Altair, crossed the finish line a winner in her class from the Dorelio by 5 minutes 51 seconds. The race, which covered the course of about 40 miles, counting the windward turn, in 4 hours 34 minutes 21 seconds, which is regarded as a remarkable performance, in a head wind and a choppy sea most of the way.

Charles Smith's schooner Muriel also sailed a great race, defeating the Iroquois, owned by Commodore E. W. Clark of the Philadelphia Yacht Club by 12 minutes. Muriel covered the distance in 3:36:37.

An unfortunate accident put the auxiliaries Ariadne and Savanora out of the race. According to James Laughlin, owner of the Ariadne, his yacht was working to windward in Smithtown Bay, two hours after the start when the Savanora, on the opposite track, was seen approaching. She did not give way, according to the rules of the race, and although the Ariadne's skipper tried to clear her, the latter yacht's bowsprit went clean through the Savanora's mainsail and then the spar broke short off. Luckily none was hurt. The wreck on both yachts was cleared away and they proceeded under their own power to Morris Cove.

\$6.00 Dandy Eyeglasses

\$3.50

This remarkable offer is made for the purpose of placing good glasses within the reach of all. You should be sure and come here for your glasses, not only because of the substantial saving of money to you, but chiefly because you are absolutely sure to get what your eyes require.
